

CASE STUDY PROFESSIONAL SERVICES ANEMBO CONSULTANTS

Sometimes you have to go back to square one to make big changes. That's the case with one Caloundra-based landscaping and architectural company.

LOCATION, LOCATION

A recently expanded landscape and architectural firm, Anembo Consultants has expertise in environmental sciences and landscape construction management. It is no stranger to solving environmental problems. That's why, when the opportunity came up, Anembo decided to move into a smaller, more modern and more environmentally efficient office.

DESIGN FEATURES

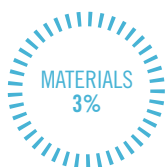

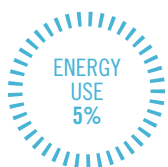

Anembo's new location has many advantages over the previous. It came ready-installed with excellent insulation, plus energy-efficient lighting, air-conditioning and water reduction fixtures.

Anembo used this base to launch an active sustainability program. Measures taken included reducing overall waste, reusing single-sided print jobs and only printing when necessary. To ensure all recyclable materials were separated, the consultancy installed split waste systems in the office.

PROJECT STATUS

While these efforts guarantee ongoing savings, Anembo's move from a larger and inefficient office represented its single largest ecoBiz saving. No longer paying to power, heat and cool space it didn't need, Anembo Consultants has permanently minimised its costs and environmental impacts.

ANNUAL SAVINGS

ANEMBO CONSULTANTS

Landscaping and architecture firm

ECOBIZ OBJECTIVE

- Move to more efficient offices
- Continue to save water, power and waste costs

ACTION PLAN HIGHLIGHTS

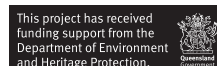

- Find the right new premises
- Introduce recycling and waste paper control programs

ANNUAL SAVINGS

- Energy use has dropped by 11,355 MJ, or 5 per cent.
- Greenhouse gas emissions have been cut by 29 per cent, down 8.44 t CO₂-e, equal to taking two cars off the road.
- Materials use has dropped 3 per cent.
- Efficiency savings equal \$560 each year.
