

ECOBIZ CASE STUDY ACCOMMODATION DAINTREE ECOLOGE

Beautiful boutique accommodation nestled in the heart of the World Heritagelisted Daintree Rainforest. Daintree Ecologe features 15 eco-friendly treehouses immersed in the canopy.

KEY INITIATIVES

ENERGY

To support its commitment to energy efficiency the Ecologe is partially powered by 50 solar panels. It is a carbon neutral property - all carbon emissions are compensated for by funding native reforestation through Greenfleet.

WATER

Daintree Ecologe uses a bio-cycle wastewater treatment plant and toxic free cleaning methods (use eWater Systems instead of chemicals) that allow 100% of the water to be recycled and used for irrigation and watering.

WASTE

Daintree Ecologe's operations truly have sustainability at its core. There is minimal use of single-use plastics and packaging. The Ecologe uses local products and recycles all materials where possible.

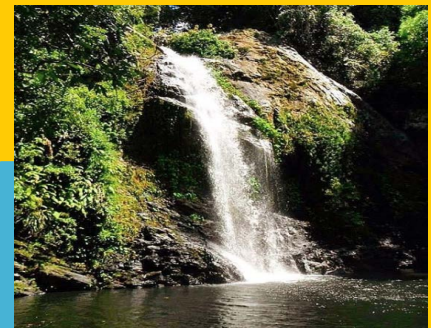

An on-site herb and veggie garden provides Julaymba Restaurant with a constant supply of fresh produce. All organic kitchen waste is either composted to support this garden or fed to local livestock.

DAINTREE ECOLOGE

The resort is located within the lush Daintree Rainforest that boasts majestic Bull Kauri trees and has a private waterfall and dedicated walks. The accommodation features a main lodge with a bar, 15 eco-friendly treehouses and a public rainforest restaurant that all employ a suite of sustainability initiatives.

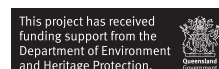

ECOBIZ CHAMPION

Daintree Ecologe is passionate about reducing its environmental impact and has been recognised as an ecoBiz Waste Star Partner. The resort further exemplifies sustainability through its partnership with Rainforest Rescue to assist in reforestation efforts, and by donating \$50 to the Morris Family Foundation Reef Keepers Fund for every guest stay to help protect and preserve the Great Barrier Reef.
